

Home & Heart Board Member Job Description

Do you care about older adults and want to help them reduce isolation and age in place? Would you like to help people who are unhoused or housing insecure find safe and stable housing? If so, becoming a member of the Home & Heart Board is an opportunity to support people and address these concerns. Participation on the Board is a wonderful way to give back to the community, support people in need of stable housing, and meet new people who share these interests.

Home & Heart is Butte County's homesharing organization whose mission is to assist older adults to age in place, decrease isolation, and expand the stock of affordable housing in Butte County. We facilitate homesharing matches between older adults who want to age in place (home providers) and adults who are seeking affordable housing (home seekers). Home & Heart has a comprehensive process that supports participants every step of the way.

Home & Heart is looking for several new Board Members to join our Board in guiding and supporting the organization. There are no professional or educational requirements to be involved, just an interest in/commitment to the work that Home & Heart does.

Responsibilities of Board members

Each Board member is expected to:

- Commit to investing 1-4 hours per month to attend Board meetings and support the organization in activities listed below.
- Attend monthly Board meetings from 6-7 pm on the third Wednesday of the month.
- Review the organization's financial statements. No financial expertise is needed.
- Serve as ambassadors and advocates for the organization.
- Participate in outreach and/or fundraising activities several times per year, including activities such as tabling at outreach and fundraising events, helping the organization to develop community relationships, helping the organization to grow our individual donor base, and/or helping plan and staff fundraising events.
- Individual Board members bring different experience and skills to the Board and we strive to work with each Board member to find how they can best utilize their talents and interests to support the organization.
